Thoughts on this page

Ideally the events section should be populated from data base so the non techie people can also keep the site up to date. Also think people should have to log in to RSVP, suggest events etc

Thoughts on this page:

If someone plans on going to  
an event they click yes—if  
they change they're mind  
they click no— What do you  
think of the names of mem-  
bers going shown??

## Suggest an Event

Thoughts about this page

If someone suggests an event—if 3+ people sign up for it then the event is moved to upcoming events

User Name

What is your suggestion for a meetup:

Are you willing to orgnnise the event

This page needs a bit more thought but the idea is that if someone wanted to go to an event but didn't want to go along they could find people to go with them
